

# GLENVIEW BICYCLE & PEDESTRIAN PLAN

## PEDESTRIAN TOOLKIT

The following pedestrian typologies are examples of the proposed facility types that Glenview could potentially employ in the future as they grow its pedestrian network. Of course, not all facility types are appropriate for every roadway. Instead, each has criteria that, when followed, provide the highest potential for safety and comfort for pedestrians.

**PLACE YOUR THREE (3) YELLOW DOTS ON THE FACILITIES YOU WOULD MOST WANT TO SEE IN GLENVIEW.**

**PLACE A YELLOW PIN ON THE EXISTING CONDITIONS MAP WHERE YOU WOULD LIKE TO SEE NEW BIKEWAY FACILITIES AND WRITE THE FACILITY TYPE YOU WOULD PREFER.**

**WRITE ANY ADDITIONAL COMMENTS OR SUGGESTIONS ON YOUR FEEDBACK FORM. SUBMIT YOUR COMPLETED FORM TO A PROJECT TEAM MEMBER.**

### SIDEWALK

Sidewalks provide dedicated space intended for use by pedestrians that is safe, comfortable, and accessible to all. Sidewalks are physically separated from the roadway by a curb or unpaved buffer space.

**DO YOU WANT TO SEE SIDEWALKS IN GLENVIEW?**

### PEDESTRIAN LANE

A pedestrian lane is a space on the roadway that is designated for exclusive use by pedestrians. Intended for low-speed, low-volume roadway, the pedestrian lane typically is placed on one side of the roadway.

**DO YOU WANT TO SEE PEDESTRIAN LANES IN GLENVIEW?**

### HIGH-VISIBILITY CROSSWALK

High-visibility crosswalks use patterns (i.e., bar pairs, continental, ladder) that are visible to both the driver and pedestrian from farther away compared to traditional transverse line crosswalks.

**DO YOU WANT TO SEE HIGH-VISIBILITY CROSSWALKS IN GLENVIEW?**

### RAPID FLASHING BEACON

A Rectangular Rapid Flashing Beacon (RRFB) is a device that provides a rapid flashing light at an unsignalized crossing when activated by a pedestrian or bicyclist.

**DO YOU WANT TO SEE RAPID FLASHING BEACONS IN GLENVIEW?**

### PEDESTRIAN REFUGE ISLAND

A pedestrian refuge island is a barrier median that is designed to provide space for pedestrians to wait when navigating a crossing. They may be placed at signalized or unsignalized intersections, or at midblock locations.

**DO YOU WANT TO SEE PEDESTRIAN ISLANDS IN GLENVIEW?**

### WAYFINDING SIGNAGE

A bicycle wayfinding sign system consists of comprehensive signing and/or pavement markings to guide bicyclists to their destinations along preferred bicycle routes. Signs are typically placed at decision points along bicycle routes.

**DO YOU WANT TO SEE WAYFINDING SIGNAGE IN GLENVIEW?**
